

**2012  
ISA Edmonton Section  
Sponsorship Packages  
Become a Sponsor Today!**

Imagine if you could associate your company with excellence in the minds of the automation, controls and instrumentation industry. Make it happen by sponsoring ISA Edmonton section events throughout the year including the ISA Oilsands Automation Conference and the ISA Corporate Golf Tournament. The events are organized by section volunteers but support for these programs is provided by companies and individuals like you!

**Reach the right people as an ISA Sponsor**

ISA sponsorship gives your company an opportunity to reach our Alberta automation, control and instrumentation market. ISA's members and customers come from continuous process, discrete, and hybrid manufacturing environments. They influence buying decisions at every level and represent every major market segment, including energy, food and beverage, chemical, oil and gas, petrochemical, utilities, water/wastewater, and more.
